

## Glux visual products

↙ The quality is in the details  
Using future technology, today.

## TVsn Series High Intensity High Resolution Indoor LED display.

- SMD 3in1 LEDs, Ultra thin and Light weight High Resolution Indoor LED Display.
- High refresh rate and ultra low brightness display without Gray scale reducing.
- Carbon Fiber frame for super thin and lightweight style with ultra-high strength tensile force, high mechanical stability.
- Easy, quick and flexible installation for fast assembly and maintenance, suitable for different applications.
- Dot by dot calibration guarantee image uniformity.
- Perfect inclined frame structure for curved and 90degree assembly.

## High Definition Pixel Pitch is less than 0.9mm, The best high definition LED display in the world.

## Dual power supply & signal

Dual power supply & signal input design, one for working, one for spare. When one input fails you can use another input. Double security, double reliability.

Rotatable control lever to adjust panel curve degree

## Arc bending panel body technology

Special arc bending panel body technology of TVsn series to form a curved curtain screen to certain degree, solve the only flat installation problem of traditional LED screen, match all kinds of requirements for inter arc-shaped, outer arc-shaped, circular shape and wavy shape screen.

## 45degree panel corner design

45 degree panel corner design for 90 degree seamless splicing installation

45 degree panel corner design

90 degree seamless splicing installation for panels

## Omnidirectional adjustment FALock

### Function instruction for Omnidirectional adjustment FALock

A/B/C/D four flexible connectors to lock panels separately.  
 A1/B1/C1/D1 four screws to adjust the flatness of each panel.  
 NO.1 screw to adjust the space between A and B.  
 NO.2 screw to adjust the space between A and C.  
 NO.3 screw to adjust the space between B and D.  
 NO.4 screw to adjust the space between C and D.
